

Scrap Box Workshops Outside the Box!

(available September - May only)

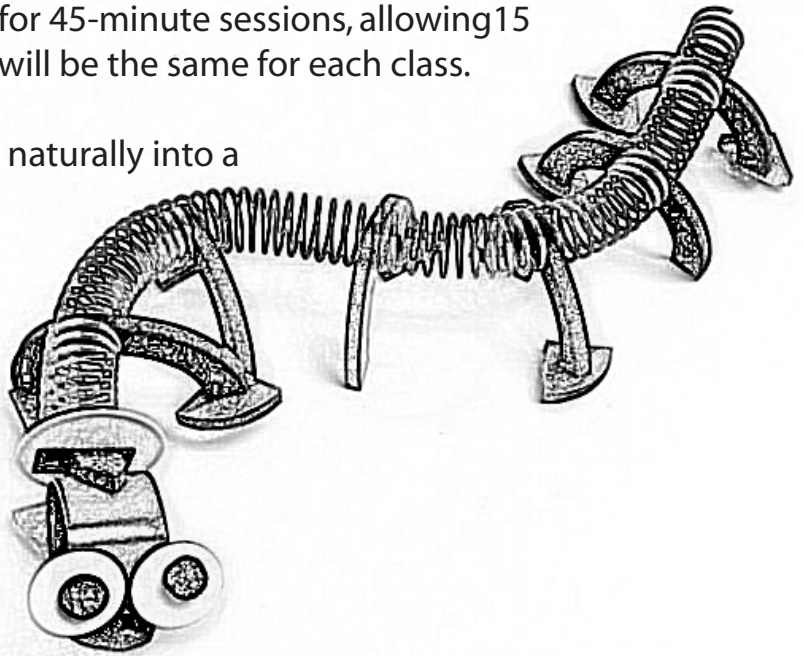

The Scrap Box, Ann Arbor's Great Green Treasure House, still offers workshops at our site on State Circle, but we are also able to bring our program to your school. No longer are transportation costs an issue. We bring all the materials and ideas to allow your students the opportunity to create their own unique project based on your curriculum needs.

We can visit two to four classes in a day, for 45-minute sessions, allowing 15 minutes in between. The project choice will be the same for each class.

Recycle, reuse, and renewal themes lead naturally into a Scrap Box workshop.

Not only can paper, metal, glass, and some plastics be recycled, but so can a host of other industrial discards that The Scrap Box collects.

3-D constructions, pets and their habitats, imaginary critters as part of a creative writing project, and biographical puppets also work well.

Ideally, if one classroom could be set up with work tables for the day, with each class rotating through the room to do the project, scheduling will be much more efficient.

Costs: based on how many classes are participating:

2 classes: \$250.

3 classes: \$375.

4 classes: \$500.

In addition, there is a mileage charge of 50¢/mile.

To reserve your workshop, call Libby at The Scrap Box at (734) 994-0012.
